(a) L Johnson ltr (8RC) to H P Mann Request For Information Pursuant to Section 104 of CERCLA for the Rocky Flats Plant Located In Jefferson County Colorado October 18 1993

(b) H P Mann ltr HPM 767 93 to M Hestmark Qualified Response to CERCLA 104(e) Request For Information November 24 1993

MINUTES FROM MEETING BETWEEN THE ENVIRONMENTAL PROTECTION AGENCY (EPA) THE DEPARTMENT OF ENERGY ROCKY FLATS OFFICE (DOE,RFO) AND EG&G ROCKY FLATS INC (EG&G) PWS 180 93

A meeting was held between the above referenced parties at the Denver Colorado headquarters of EPA Region VIII The meeting was held to discuss EG&G's November 24 1993 response to an information request from EPA under Section 104(e) of the Comprehensive Environmental Response Compensation and Liability Act (CERCLA)

The discussion during the meeting generally followed the format of the CERCLA 104(e) request and response Individual questions and answers were discussed in numerical order with the intent to clarify both A summary of the discussions and actions accepted by attendees are listed below An attendee list is attached Questions and answers referenced below are those delineated in Reference (a)

Questions 1 & 2 Discussion focused around two issues 1) the ongoing reorganization initiative of the DOE RFO and 2) the lack of a direct "counterpart" relationship between the DOE RFO and EG&G organizations Actions DOE RFO will provide a copy of the proposed DOE RFO organization chart to EPA by December 23 1993

Subsequent to a meeting between EG&G and DOE RFO scheduled for January 12 13 1994 EG&G will provide a status of EG&G "counterpart" relationships with DOE RFO to EPA This submittal will be made on January 14 1993

Question 3 EPA agreed to review the submittal in Reference (b) and request the documents they wish to review from DOE EG&G will provide those documents when requested by DOE RFO

EG&G agreed to review Enclosure 3 to Reference letter (b) for completeness in the area of Duct Remediation. Any additional documents which are identified as a result of that effort will be submitted to EPA by EG&G in the form of an amendment to Enclosure 3 by January 14 1993.

Question 4 & 5 General discussion on these questions centered around EPA's ability to access documents. DOE RFO expressed a willingness to share appropriate documents with EPA as requested and a desire to further incorporate EPA into the Rocky Flats planning loop in order to prevent future delays of this type.

Question 6 EPA accepts this submittal with the caveat that it is basically a living document and subject to change. The attendant question of responsible parties will be further explained by EG&G in its responses to Questions 1 2 & 8.

Question 7 It was basically agreed by all parties that further elaboration of the DOE budgeting process would enhance EPA's understanding of Rocky Flats activities. EG&G and DOE RFO agreed to take an action to set up an informal workshop between EPA and Rocky Flats personnel to explain how that budgeting process works.

EG&G also agreed to provide EPA with a list of subcontractors that currently perform work on Transition D&D activities. This list will be submitted with the January 14 1994 submittal resulting from Question 3.

Question 8 Based on the discussions detailed above it was agreed by all parties that the ultimate answer to Question 8 would lie in further discussions between EPA DOE RFO and EG&G. This was seen to be an iterative process based in part on analysis of various documents organizational structures and budgetary processes.

Pending the resolution of that concern EG&G agreed to provide current organization charts for the organizations mentioned in A 8 to Reference letter (b) in the January 14 1994 submittal to EPA.

As a general action DOE RFO agreed to provide embellishment to EG&G response Reference b to EPA by January 31 1994. This was generally stated to include clarification of DOE's position relative to the related issues. It was further agreed by all parties that all additional responses to this matter from EG&G would be issued jointly with DOE RFO concurrence.
